New designer for Malö Yachts!

It is now decided. A new designer for Malö Yachts has been appointed and the choice fell on Fredrik Forsgren, formerly Nimbus and Sweden Yachts. Fredrik Forsgren is to start the 29th of June.

- Fredrik Forsgren is a very skilled person, trained Yacht Designer and a rising star in the sky of designers with good experience. He is a committed sailor, enthusiastic and will with new eyes take Malö Yachts into the future. He will work inside the business, and not at a distance, which is important for us and his task will be to develop the next generation of Malö Yachts, "says Lars Olsson, CEO of Malö Yachts.

- It is absolutely brilliant and challenging to get this opportunity, "says Fredrik Forsgren. I see great potential in further developing this successful business and I want to build on the work done very well by my predecessors. I burn to produce a balanced solution to a long-distance sailor with a richness of finesse. Malö Yachts have a strong position in the market today that I want to sharpen further.
